

The Payments Council produces a variety of publications each year which analyse diverse areas of payments in the UK. The information in these publications is used in research reports, press releases and news articles and is invaluable to a multitude of organisations for their planning and development each year.

Our publications provide detailed commentary on the payments market and are seen as the authoritative source of payment information in the UK. Our teams carry out market research and analyse payments and clearing data provided by the Payments Council and other scheme members to ensure the most accurate information is provided.

The publications listed below are FREE to members of the Payments Council. If you would like to request further copies please email press@ukpayments.org.uk
